

Wall-mounted soap dispenser h801_08

Electronic satin-finish 304 stainless steel soap dispenser with infrared sensor, 105 mm spout, and mains power supply for touch-free hygiene.

The **electronic soap dispenser** is a professional solution designed to ensure the highest standards of hygiene and functionality in high-traffic environments. Thanks to automatic detection technology via an **infrared cell**, dispensing occurs without any manual contact, eliminating the risk of cross-contamination. The technical configuration includes an independent electronic box and a removable tank for **under-sink mounting**, ensuring a discreet installation and easy maintenance.

Technical characteristics

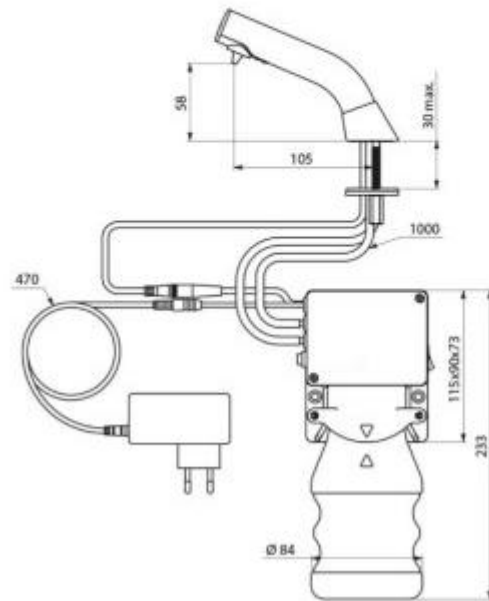

- **Material:** AISI 304 stainless steel with a satin finish.
- **Compatibility:** suitable for dispensing liquid soap, foam soap, and hydroalcoholic gel.
- **Dispensing system:** integrated dosing pump with anti-waste technology.
- **Power supply:** direct connection to the mains via the included 230/6 V transformer.
- **Dimensions:** dispensing spout with a length of 105 mm.
- **Capacity:** 0.5-liter tank provided.
- **Reliability:** product guaranteed for 10 years.
- **Certifications:** compliant with CE standards.
