

Medical ward round trolley for 20 folder holders h564_88

Medical ward round trolley with sliding lid and 3 drawers.

Trolley with suspended folder holder drawer, complete with sliding lid, monocoque with high-density technopolymer walls: they ensure excellent durability over time, resistance, safety, hygiene and extreme maneuverability of the trolley thanks to their lightness. The innovative color design gives the trolley an attractive, linear and compact shape. **Supporting structure** formed by 4 external uprights made of epoxy powder-coated **steel** that ensure stability and compactness to the trolley. The painting process complies with **UNI EN ISO 9001** standards. Side and rear walls, self-supporting for a 100 kg load, made of technopolymer, with rounded edges and no sharp corners, prepared for the insertion of accessories. **Top surface** made of fire-retardant plastic laminate consisting of 1 sliding lid on **stainless steel** telescopic guides, complete with **recessed handle**; upon opening it becomes a convenient and sturdy work surface/desk. The underlying compartment can hold up to **20 X-ray folders** and is equipped with supports for hooking the folders with a locking device to prevent the folders from overlapping or lifting. Lower part **painted steel drawer**, sliding on **total extraction telescopic guides** with automatic return soft-close and end-stop, dimensions 460x500x460 h mm, complete with ergonomic and anti-trauma **aluminum handle**. It can hold up to 20 X-ray folders and is equipped with support for hooking the folders with a locking device to prevent the folders from overlapping or lifting. **Centralized lock** with anti-trauma **folding key** for both the upper compartment and the drawer. Front colors: blue RAL 5015 (on request: yellow RAL 1018, green RAL 6029, red RAL 3000). Right side: ergonomic and anti-trauma push handle in ABS. Base: 4 anti-scratch PVC corner bumpers. 4 thermoformed pivoting solid rubber wheels, mounted on **Ø 125 mm bearings, 2 of which with brakes**.
