Ward stretcher h728_10

Hospital stretcher for patient transport. Height adjustable by hydraulic motor. Dimensions: L.190 x W.62 x h.59/109 cm.

Ward stretcher for hospitals, clinics, nursing homes. Perfect for transporting patients to operating rooms and various hospital departments. Consisting of a **2-section** surface padded with foam and covered in fire-retardant vinyl and a painted steel frame. The headrest is equipped with a **facial breathing hole with its relative plug**, to ensure maximum comfort for the patient. The frame features **drop-down side rails** on the sides for greater safety during transport. The **height of the structure can be adjusted by a hydraulic motor**, while the **backrest is manually adjustable by a lever**. The stretcher is also complete with comfortable **push handles** from the head side and the foot side, oxygen cylinder holder and IV pole. The base features **4 wheels**, 2 with brakes and 1 with a directional brake.

Technical features:

- Dimensions: L.190 x W.62 x h.59/109 cm
- Capacity: 180 kg
- Frame material: steel with epoxy coating and white painting
- Upholstery material: 100% vinyl
- Class 1IM fire-retardant upholstery
- 5 cm foam padding, 30 kg/m³
- 1-motor hydraulic operation for height adjustment
- Backrest adjustable by lever
- Facial hole with plug
- 2 push handles (foot side and head side)
