

Warehouse column protector h439_15

Octagonal PE protector for 150 x 150 mm pillars, velcro mounting. Dimensions: W 400 x D 360 x H 1000 mm.

The **H439_15 column protector** is the ideal solution for **column protection** in industrial environments and warehouses, where structural safety and the prevention of damage from accidental impacts are fundamental.

Designed with an **octagonal shape**, this system completely surrounds **150 x 150 mm** pillars, ensuring **360° full coverage**. It is made of impact-resistant **polyethylene (PE)**, resistant to weather and chemical agents, perfect for **both indoor and outdoor** use.

Mounting is **extremely quick and simple**, thanks to the **included velcro straps**, which allow for secure fastening **without the use of tools**. The **signal yellow color** ensures high visibility, helping to reduce the risk of collisions.

Delivered **pre-assembled**, the H439_15 protector is ready for use and represents an effective, modular, and reusable solution for the **securing of structural columns** in warehouses, logistics centers, and production areas.

Protect the pillars of your facility with the **H439_15 protector**. Contact us to receive a personalized offer on quantities or integrated solutions for industrial safety.

Technical features:

- **Material:** Polyethylene (PE)
- **Color:** High visibility yellow
- **Shape:** Octagonal
- **Pillar compatibility:** 150 x 150 mm
- **Width:** 400 mm
- **Depth:** 360 mm
- **Height:** 1000 mm
- **Net weight:** 10 kg
- **Mounting:** Velcro fastening included
- **Delivery:** Pre-assembled
- **Mounting position:** Columns
- **Field of application:** Indoor and outdoor use
- **Warranty:** 1 year

User benefits:

- **Protection:** complete for medium-sized pillars.
- **Mounting:** simple and fast, without tools.
- **High visibility:** for impact prevention.
- **Usable:** in indoor and outdoor environments.
- **Material:** resistant to impacts, weather, and chemicals.

FAQ:

1. **What pillar sizes can it protect?**

It is designed for 150 x 150 mm pillars.

2. **Does mounting require tools?**

No, it attaches easily with already included velcro straps.

3. **Is it suitable for outdoors?**

Yes, the PE material is resistant to UV rays and adverse weather conditions.

4. **Is it delivered ready to use?**

Yes, it is supplied pre-assembled and ready for installation.

5. **Can I remove and reuse it elsewhere?**

Yes, the velcro system makes the protector easily repositionable.

Mini buying guide:

Choosing the right protection for pillars means investing in safety and prevention.

The H439_15 model, thanks to its **octagonal shape**, guarantees **full coverage**, while the **velcro mounting** allows for **easy installation and reuse**.

Perfect for **warehouses with forklift traffic**, it is a durable, visible solution suitable for **various operational environments**.
