

Warehouse pillar protection h439_14

Octagonal PE protection for 100 x 100 mm pillars, fast velcro assembly. Dimensions: W 400 x D 360 x H 1000 mm.

The **H439_14 pillar protection** is the practical, lightweight and resistant solution for **securing columns** in industrial environments, warehouses, logistics and production areas. Thanks to its **octagonal shape**, it offers effective and uniform coverage on all sides of the pillar, reducing the risk of structural damage caused by accidental impacts with forklifts or handling equipment.

Made of **high-resistance polyethylene**, this protection is **suitable for both indoor and outdoor use**, being resistant to impacts, weathering and chemical agents. The **high-visibility yellow** color increases risk perception in work environments, contributing to greater accident prevention.

Easy to assemble, it is delivered **pre-assembled** and is quickly fixed using **velcro strips**, without the need for tools or specialized personnel. It is designed for **100 x 100 mm pillars**.

Choose the **H439_14 octagonal protection** to increase the safety of your warehouse. Contact us now for multiple orders or customized configurations.

Technical features:

- **Material:** Polyethylene (PE)
- **Color:** High visibility yellow
- **Shape:** Octagonal
- **Pillar compatibility:** 100 x 100 mm
- **Width:** 400 mm
- **Depth:** 360 mm
- **Height:** 1000 mm
- **Net weight:** 10 kg
- **Assembly:** With velcro strips included (no tools required)
- **Delivery:** Pre-assembled
- **Field of application:** Indoor and outdoor use
- **Mounting position:** Columns, pillars
- **Warranty:** 1 year

User benefits:

- **Protection:** 360° thanks to the octagonal shape.
- **Installation:** quick and easy without tools.
- **High visibility:** for impact prevention.
- **Suitable:** for indoors and outdoors.
- **Solution:** lightweight and impact-resistant.

FAQ:

1. **What pillar dimensions can it protect?**
It is suitable for 100 x 100 mm square pillars.
2. **Is it necessary to use tools for assembly?**
No, the protection is quickly installed with included velcro strips, without tools.
3. **Can it also be used outdoors?**
Yes, the polyethylene material is weather-resistant.
4. **Is it supplied ready to use?**
Yes, the protection is pre-assembled and ready for installation.
5. **Does it need maintenance?**
No, the material is easy to clean and requires no specific maintenance.

Mini purchase guide:

Pillar protection is essential in every warehouse to **prevent structural damage** and ensure operational safety.

Choose models made of **impact-resistant material**, **easy to install** and **highly visible**.

The octagonal shape of the H439_14 ensures **complete and uniform coverage**, while the velcro fastening allows for **quick assembly and reuse** in case of moves. Ideal for small-sized columns in high-traffic production environments.

Warehouse octagonal pillar protection, polyethylene column protector with velcro, protection for 100x100 mm columns, impact protection for industrial environments, column protector indoor and outdoor use, lightweight high visibility protection.
