

Waste bin for hotel room h438_296

9-liter waste bin for recycling in stainless steel with 3 compartments and non-slip base. Dimensions: Ø 257 x H 312 mm.

The **waste bin for hotel room h438_296** is an excellent solution for recycling, perfect for hotel rooms, offices, and common spaces. Thanks to its **stainless steel structure**, this bin not only stands out for its resistance and durability, but also fits perfectly into any environment thanks to its **polished** finish, which gives a touch of elegance. The bin has a capacity of **9 liters** and is equipped with **three separate compartments** to facilitate recycling, with internal ABS containers colored in shades of black, blue, and green, which allow for immediate waste differentiation.

The **non-slip base** ensures stability even on smooth surfaces, avoiding unwanted movements or slipping, while its compact dimensions make it ideal for small spaces without compromising its functionality. This bin has been designed to withstand daily wear and tear and ensure ease of maintenance, being easy to empty and clean. It is the ideal choice for those looking for a **modern and practical bin** that promotes sustainability and order within hospitality facilities or offices.

Choose the **waste bin for hotel room h438_296** for an elegant and functional solution for recycling.

Perfect for professional spaces and hotels, add a touch of design to your facility and promote sustainability. Purchase it today and improve the organization of your environments!

- Elegant polished finish that fits any environment
- Simplified recycling with three distinct compartments
- Durable stainless steel structure
- Non-slip base for greater safety
- Compact and easy to clean, ideal for small spaces

FAQ:

1. **Is it easy to clean?**
Yes, the bin is equipped with removable internal ABS containers, easy to empty and clean.
2. **What is the capacity of each compartment?**
The total capacity of the bin is 9 liters, equally divided among the three compartments.
3. **Is the bin rust-resistant?**
Yes, thanks to its stainless steel structure, the bin is highly resistant to rust and corrosion.
4. **Is the non-slip base removable?**
No, the non-slip base is integrated to ensure stability on any surface.

Mini buying guide:

When purchasing a **recycling bin**, it is important to consider the **capacity** and the **number of compartments**, which must be sufficient for your needs. Ensure that the material is resistant, like **stainless steel**, to guarantee durability over time and easy cleaning.

Opting for a bin with a **non-slip base** offers safety and stability in any environment. Choosing a compact model, like the **h438_296**, is ideal for small spaces without sacrificing functionality.
