

Waste bin for restaurant h09_274

Professional 115-liter satin stainless steel hopper with wheels and removable lid for waste management in HoReCa kitchens. This **professional hopper** is designed to optimize waste and raw material management in operational contexts that require high hygiene standards. The **satin stainless steel** structure guarantees superior resistance to corrosion and mechanical stress typical of intensive work environments, such as industrial kitchens and food laboratories. The functional design includes a **removable lid** that facilitates emptying and sanitization operations, while the movement system on wheels allows for smooth displacement even when fully loaded.

Technical features

- **Material:** High-resistance satin stainless steel
- **Capacity:** 115 liters
- **Closing system:** Removable lid for total access
- **Mobility:** Equipped with wheels for rapid movement
- **Dimensions:** W. 61 x D. 40 x h. 73 cm
