

## Waste bin for separate collection h86\_207

Waste collection container for indoor spaces. Capacity: 110 lt. Large pedal for contact-free lid opening.

**Waste container** specifically for indoor use. Perfect for placement in bars, stations, airports and schools. Placed alongside other containers, it allows for the creation of an ecological island for separate waste collection. Characterized by a **sturdy anti-UV painted steel structure**, whose **front part is removable** to allow cleaning and bag replacement operations. Equipped with a **lid that can be opened via a wide pedal** to avoid any type of contact of the hands with the surfaces of the structure. The base features **2 practical support feet at the rear** and **2 wheels at the front** which, with the use of the integrated push handle, makes the container extremely easy to handle.

### Technical features:

- Dimensions: W.42 x D.42 x h.96 cm
- Capacity: 110 lt
- With 2 wheels and 2 support feet
- Lid with wide pedal opening
- Push handle
- Removable front part for bag extraction
- Silent closing
- HACCP compliant
- Lettering with waste type indication based on lid color (blue paper, yellow plastic, grey unsorted waste)
- Anthracite grey structure
- Lid available in multiple colors

## INFORMATION

- Height in millimeters 960.000000
- Width in millimeters 470.000000
- Depth in millimeters 420.000000
