## Waste bin for urban furniture h31930

Outdoor waste bin made of concrete. Tilting roof in galvanized steel. Available in different finishes and colors. Made in Italy.

**Waste collection bin** essential for furnishing streets, squares and public parks, to ensure the decorum and cleanliness of the surrounding environment.

The waste bin features an exposed brick look facade and is perfect for being placed also outside shopping centers, sports centers or in residential areas.

The container is made of **high-resistance concrete** with rounded and sanded corners to avoid sharp edges, which could be harmful to the community.

The product is equipped with a **tilting roof in galvanized and powder-coated steel**.

The possibility of choosing between **different finishes** and **roofs in different colors**, makes the waste bin versatile to satisfy every furnishing need.

### Technical features:

- Waste bin
- Material: grey concrete and galvanized steel
- Tilting roof
- Available roof colors: fire red, jet black, moss green
- Dimensions (roof included): 60x60xh.100 cm
- Made in Italy
