

Waste bin h413_101

70L stainless steel waste bin, pedal lid, wheels, front opening. Ideal for HoReCa.

Professional **stainless steel** waste bin designed for high-traffic environments such as restaurants, pizzerias, and shopping centers. The rectangular design with a **front-opening door** allows for quick and intuitive waste access, while the **pedal-operated lid** maintains environment hygiene and reduces the spread of odors. The **integrated wheels** facilitate transport and placement in various areas of the kitchen or dining room, ensuring operational practicality even during high-intensity shifts.

Technical features
