

Waste bin with liquid drain for fast food h684_146

h684_146 waste bin with liquid drain for fast food. Made of customizable laminated wood, modular and ideal for creating recycling stations. Dimensions: 550 x 600 x 909 mm.

The **h684_146 waste bin with liquid drain** is an advanced technical module designed to solve one of the most critical needs in waste management for fast-food catering. This module transforms the **liquid drain** function into a discreet and elegant design element, perfectly integrable into **self-service and fast-food** environments. Made of high-quality **laminated wood**, the structure allows for the hygienic and orderly disposal of residual liquids, offering the **professional target** a robust and customizable solution that prevents stagnation and bad odors inside solid waste containers.

Technical features

- **External dimensions:** 550 x 600 x 909 mm (W x D x H)
- **Internal compartment dimensions:** 510 x 560 x 569 mm (W x D x H)
- **Net weight:** 60 Kg
- **Material:** Laminated wood available in different finishes
- **Disposal system:** Specific top hole for liquid drainage
- **Structure:** Cabinet with front door and ergonomic handle
- **Customization:** Wide range of laminates and logos upon request
- **Modularity:** Compatible with models h684_144 and h684_145

** Image for illustrative purposes only*

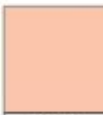

** The waste bin is customizable with logos; upon request and subject to a quote, a front/side plinth and waste labels can be added*

INFORMATION

- **Height in millimetres** 909.000000
- **Width in millimetres** 550.000000
- **Depth in millimetres** 600.000000
