

Waste bin with manual lid and 4 wheels h413_77

70-liter stainless steel waste bin with 4-wheel trolley and manual lid. Ø42 x h73 cm, ideal for professional environments.

The 70-liter stainless steel waste bin is a mobile container designed for professional environments such as kitchens, restaurants, and pizzerias, where efficient waste management and ease of movement are fundamental requirements. The **manual opening lid** allows for quick access, while the **integrated trolley with 4 wheels** allows the bin to be moved easily even over long distances without requiring excessive effort. The **stainless steel structure** guarantees high resistance to corrosion, longevity, and a hygienic and modern appearance, essential characteristics in food and catering contexts.
