

## Waste bins with lock 50lt h8651

Waste collection container with lock. Item with a capacity of 50 liters. Structure color: manganese grey. Color option for the lid. The proposed article has been created for **waste sorting** and is ideal for hotels, gyms, offices, and schools. The design is space-saving as it has a capacity of **50 liters**, but the dimensions are not excessive. The steel has been **painted with Anti-UV powder**. The feet at the base are made of plastic, as they are essential for an **uneven floor** and necessary to give stability to the container. The internal bucket is made of **polypropylene**, with a **metal** handle. The uniqueness of this product consists of a lock placed on the **anti-vandalism** lid.

### Technical features:

- Material: painted steel
- Internal polypropylene container with handle
