

Waste kick bucket h278_36

16 L waste kick bucket, with Ø 30 mm wheels. Dimensions: Ø 41 x H 18 cm.

The **H278_36 stainless steel kick bucket on wheels for hospital** is a professional tool, designed for the **collection of medical waste** in clinical, outpatient and hospital environments. Made entirely of **stainless steel**, it ensures **maximum hygiene, corrosion resistance and durability over time**, making it ideal for daily use in departments with high hygiene standards.

With a **capacity of 16 liters**, it is perfect for collecting light waste such as **gauze, bandages, dressing materials or procedural waste**, without compromising maneuverability. The **diameter of 41 cm** and the low height of **18 cm** make this kick bucket easy to position next to beds, operating tables or dressing trolleys.

Equipped with **4 wheels of Ø 30 mm**, it offers **maximum mobility** even in tight spaces and on smooth surfaces. The **compact and mobile structure** allows healthcare personnel to operate in full freedom, without interruptions.

Easy to **sanitize**, with **smooth surfaces and no sharp edges**, the H278_36 kick bucket is an essential accessory to optimize the organization and safety of work in hospital departments.

Rely on the quality of stainless steel for medical waste collection. Order the **H278_36 kick bucket** or request a quote for multiple hospital supplies!
