

Waste separation container with 3 compartments capacity 3 x 45 Lt h719_23

Triple station for waste separation. Capacity: 3 x 45 Lt. Available in multiple color combinations.

Recycling station with capacity 3 x 45 Lt to be placed in indoor spaces for public use such as shopping centers, universities, schools, offices, shops, studios. Made of **high-quality galvanized steel** and treated with **eco-friendly powder coating**, it is the perfect and sustainable choice for a future dedicated to cleanliness and hygiene. The structure consists of **no. 3 internal galvanized containers** and a **lid with snap closure** and equipped with a **square key included**, which allows for the immediate removal of waste bags. On the upper part of the lid, there are **3 hexagonal stainless steel flaps** through which it is possible to place waste inside each container. **Set of stickers** symbolizing different types of waste (paper, plastic, organic waste, and glass) supplied as standard. The container is **easy to handle** and easy to move thanks to **two wheels** on the front side. **Available in different color combinations.**
