

Wing flag with snow spike h738_179

Advertising flag with flexible pole and snow spike. Flag dimensions: 62 x 268 cm. Total height: 301.5 cm.

The **H738_179 wing advertising flag with snow spike included** is designed to ensure **maximum visibility and stability** even in difficult weather conditions and on **snowy or natural ground**. Ideal for outdoor events, seasonal promotions, winter fairs, ski slopes, outdoor markets, or promotional activities in the mountains, this model combines **wind resistance, lightness, and ease of assembly**.

The structure is made with a **flexible fiberglass pole**, a resistant and flexible material, finished in **black**, which offers **high elasticity even under wind loads**. The flag is made of **100% polyester nautical fabric (100 g/m²)**, printed with **single-sided sublimation technology**, to ensure **brilliant colors, sharp details, and durability over time**.

The included **snow spike** allows for **stable anchoring on snowy or soft surfaces**, without the need for additional supports or heavy bases. With a **flag size of 620 x 2680 mm** and a **total height of 3015 mm**, the flag ensures excellent visibility even from a distance, while maintaining a compact footprint.

When used outdoors 24/7 and in adverse weather conditions, the estimated lifespan of the flag is approximately **90 days**. In indoor environments or with moderate exposure, the **durability can exceed 12 months**.

Order the **H738_179 wing flag with snow spike** now and promote your business even in extreme winter conditions. Custom graphics included: send them at the time of ordering to proceed with printing!

FAQ:

1. **Can the flag be fixed directly on the snow?**
Yes, the included snow spike allows for direct and stable anchoring on snowy surfaces.
2. **Are graphics included?**
Yes, printing is included in the price, but the graphics must be sent during the ordering phase.
3. **Is the print visible from both sides?**
No, the printing is single-sided sublimation.
4. **How long does the flag last outdoors?**
In unfavorable weather conditions 24/7, the duration is approximately 90 days.
5. **Is it also suitable for non-winter use?**
Absolutely yes, it can be used on any soft ground, not just on snow.

Mini buyer's guide:

To promote your business in winter or outdoor environments, choosing the right flag is fundamental.

The **H738_179** model, with **integrated snow spike**, is designed to be **easily anchored on natural surfaces** without losing stability.

The **fiberglass pole** offers wind resistance and lightness, while **sublimation printing on nautical fabric** ensures durability and visual impact.

If you are looking for a **customizable, resistant, and practical** product, perfect for seasonal or promotional contexts, this wing flag is the right choice.

Wing flag with snow spike, outdoor advertising flag for snow, custom outdoor sublimation flag, wind-resistant fiberglass flag, nautical fabric flag with printing included, flag for winter fairs and mountain events, snow promotional support, outdoor flag with spike.
