

Winter cover for Oval ground pools in polyester 6,25 x 3,50 mt h17425

Winter cover in polyester for inground pools oval accompanied by pockets of heaviness. Italian product.

Winter cover for inground pools oval-shaped with maximum dimensions of 6.25 X 3.50 m made of polyester treated frost and UV rays.

The swimming pool covers are an essential element for the owners of these structures because not only maintain a constant water temperature and avoid evaporation, but prevent the pollution of the tank and make the building safe for children and pets.

This coverage requires windproof pockets (included in price) that prevent the cover from moving with the wind.
