

Wood and concrete bench for public spaces h319_142

Urban bench with a modern design in concrete and wood, featuring internal iron reinforcement and a decorative central hole. Dimensions: W 800 x D 800 x H 500 mm. Weight: 600 kg.

The **wood and concrete bench with a modern design H319_142** is a **resistant and elegant** solution for furnishing **public spaces such as squares, parks, and gardens**. Made with a **high-quality concrete structure** and a **wooden seat**, it guarantees **solidity and comfort**, making it perfect for high-traffic urban environments.

The **internal continuous-wire iron reinforcement** improves the adhesion of the concrete, ensuring superior resistance to **atmospheric agents, wear, and vandalism**. The **central hole (diameter 270 mm, height 400 mm)** provides a modern aesthetic touch and can be used for decorative or functional elements.

The production process involves **casting in custom molds, controlled hardening, and craftsmanship**, guaranteeing a **smooth finish and precise details**. Upon request, the concrete can be treated with **painting or protective finishes** for greater resistance over time.

Buy now the **wood and concrete bench for public spaces H319_142** for durable and stylish urban furniture! Request a personalized quote immediately.

Technical characteristics:

- **Materials:** concrete, steel, and wood
- **Dimensions:** W 800 x D 800 x H 500 mm
- **Internal hole dimensions:** Ø 270 x H 400 mm
- **Seat height:** 500 mm
- **Weight:** 600 kg
- **Structure:** internal iron reinforcement for maximum resistance
- **Resistance:** designed for extreme weather conditions and intensive use
- **Finishes:** available in different finishes
- **Maintenance:** minimal, with the possibility of additional protective treatments

User benefits:

- **Structure:** robust and durable, ideal for public spaces.
- **Seat:** in wood for greater comfort.
- **Decorative central hole:** for a modern aesthetic touch.
- **Suitable:** for any urban environment, thanks to customizable finishes.
- **Resistant:** to atmospheric agents and vandalism, perfect for high-traffic areas.

FAQ:

1. **Can the bench be customized?**
Yes, various finishes for the concrete are available.
2. **Does the central hole have a specific function?**
It can be used for decorative elements, lighting, or other customizations.
3. **Does it require maintenance?**
No, it is low maintenance, but it can be treated for greater durability.
4. **What are the advantages of the concrete-wood combination?**
Concrete offers stability and resistance, while wood improves seating comfort.
5. **How is delivery handled?**
After a rigorous quality control, the bench is carefully packed to ensure arrival in perfect condition.

Mini buying guide:

When choosing an **urban bench**, it is essential to consider **resistance, aesthetics, and functionality**.

The **H319_142** model, with a **reinforced concrete structure, wooden seat, and decorative hole**, is ideal for those seeking a **modern and resistant** solution for parks, squares, and public areas.
