

## Wood and concrete bench without backrest h319\_144

Urban bench with a modern design in concrete and wood, without backrest, with reinforced structure and minimal design. Dimensions: W 1700 x D 500 x H 500 mm. Weight: 350 kg.

The **H319\_144 backless bench for public spaces** is a perfect solution for **squares, parks, gardens, and public spaces**, thanks to its **backless design**, which guarantees versatility and practicality. Its **reinforced concrete structure**, with **continuous wire internal iron reinforcement**, offers **maximum resistance to atmospheric agents, wear, and vandalism**.

The **wooden seat** adds a touch of **warmth and comfort**, contrasting with the solidity of the concrete. Its **linear and modern design** makes it suitable for both **historical and contemporary** contexts, integrating harmoniously into any urban space.

Each bench is produced using a handcrafted process that includes **casting in custom molds, controlled hardening, and manual finishing**, to ensure a **smooth surface and refined details**. Upon request, **protective finishes** can be applied to increase resistance to atmospheric agents and wear over time.

Buy the **H319\_144 bench** now for durable, practical urban furniture with a refined design! Request a personalized quote immediately.

### Technical characteristics:

- **Materials:** concrete, steel and wood
- **Dimensions:** W 1700 x D 500 x H 500 mm
- **Seat height:** 500 mm
- **Weight:** 350 kg
- **Structure:** internal iron reinforcement for greater strength
- **Resistance:** designed for public environments and adverse weather conditions
- **Finishes:** available in various concrete finishes
- **Maintenance:** minimal, with the possibility of additional protective treatments

### User benefits:

- **Design:** minimalist and modern, perfect for public and private spaces.
- **Structure:** in reinforced concrete, resistant to vandalism and atmospheric agents.
- **Seat:** in wood, for greater comfort and aesthetic value.
- **Versatility of use:** suitable for parks, squares, and rest areas.
- **Low maintenance:** with protective treatments available upon request.

### FAQ:

1. **Can the bench be customized?**  
Yes, various concrete finishes and protective treatments are available upon request.
2. **Does it require maintenance?**  
No, it is low maintenance, but can be treated for greater durability.
3. **What are the advantages of the backless version?**  
It offers greater versatility and fits into any environment, facilitating installation.
4. **How is delivery carried out?**  
After a rigorous quality control, the bench is carefully packed to ensure it arrives in perfect condition.
5. **Is the wood weather-resistant?**  
Yes, the wood used is treated to ensure resistance and long life.

### Mini buying guide:

When choosing a **bench for public spaces**, it is essential to consider **durability, aesthetics, and functionality**.

The **H319\_144** model, with **reinforced concrete structure, wooden seat, and backless design**, is ideal for those looking for a **modern and resistant solution** for urban furniture.
