

## Wood-covered outdoor litter bin h287\_391

32L urban litter bin in galvanized steel and Nordic pine wood (34x45x120 cm). Integrated design with Allen key security locking system.

The **outdoor litter bin h287\_391** is a technical solution designed for the efficient management of waste in contexts that require a balance between **mechanical durability** and landscape integration. The combination of the galvanized steel structure with the natural wood cladding makes it ideal for areas requiring robust yet aesthetically pleasing furniture, solving the problem of early degradation caused by atmospheric agents and vandalism.

## Technical features

- **Basket structure:** galvanized steel sheet with 10/10 thickness
- **Base:** high-resistance pressed steel sheet disk, 15/10 thickness
- **External cladding:** treated Nordic pine wood slats (85x20 mm section)
- **Support:** galvanized steel tube supporting pole Ø 60 mm with protective polyethylene head cover
- **Volumetric capacity:** approximately 32 liters
- **Emptying system:** security release mechanism with Allen key (included)
- **Surface treatment:** electrostatic non-toxic powder coating with polymerization at 180/200°C
- **Installation:** direct floor anchoring system
- **Overall dimensions:** 34 x 45 x H 120 cm
