

Wooden 3-section couch h 76 cm h930_49

Professional h930_49 wooden couch in beech finish with 3 sections. Load capacity 240 kg, dimensions 200x70 cm. Ideal for stability and clinical comfort.

The **professional h930_49 couch** is a solution designed to meet the needs for **stability and resistance** required in professional settings such as wellness centers, physiotherapy practices, and medical clinics. The structure solves the need for a robust support that does not compromise on aesthetics, integrating perfectly into elegant environments thanks to the **beech finish**.

The **3-section** configuration ensures optimal management of the patient's posture: the head section can be tilted up to 35° to facilitate cervical treatments or examinations, while the foot section is adjustable up to 45° to promote relaxation or drainage. The fixed height of 76 cm is calibrated to offer an ergonomic work surface that prevents postural fatigue for the operator during prolonged treatments.
