

Wooden 3-section treatment table, adjustable height h930_52

Professional 3-section treatment table in beech wood finish. Dimensions 205x70 cm, adjustable height 55-83 cm and 150 kg capacity for physiotherapy use.

The **h930_52 treatment table** is a professional equipment designed to offer maximum stability and resistance in operational contexts such as **physiotherapy clinics, beauty centers, and wellness salons**. The load-bearing structure in **wood with a beech finish** not only guarantees superior structural solidity but also provides a warm and refined aesthetic that integrates perfectly into professional environments oriented towards patient comfort.

The **3-section** configuration ensures high clinical and aesthetic versatility. Thanks to the **backrest section inclinable up to 60°** and the **central section adjustable up to 45°**, the operator can precisely customize the patient's positioning, optimizing ergonomics during treatment and improving the effectiveness of therapeutic maneuvers.

The height of the work surface is **adjustable from 55 to 83 cm** via an interval system, allowing for millimetric adaptation to the operator's postural needs. With a **thickness of 105 mm** and a **load capacity of 150 kg**, the table ensures comfortable and safe support even during prolonged treatment sessions or intense manipulations.

Technical features

- **Total dimensions:** L. 2050 x W. 700 x H. 550 - 830 mm
- **Adjustable height:** from 55 to 83 cm (interval system)
- **Frame material:** high-quality wood with beech finish
- **Maximum capacity:** 150 kg
- **Total weight:** 53 kg
- **Padding thickness:** 105 mm
- **Configuration:** 3 articulated sections model
- **Backrest inclination:** adjustable up to 60°
- **Central section inclination:** adjustable up to 45°
