

Wooden and cast iron bench for urban furniture h773_29

Bench for urban furniture in pressure-treated pine and cast iron supports, kit assembly. Dimensions: L 189 x D 73 x H 85 cm.

The **wooden and cast iron bench for urban furniture H773_29** is a classic and robust solution for the setup of **outdoor public spaces**, such as **parks, gardens, pedestrian areas, school courtyards, and city avenues**. Designed to guarantee **durability and comfort**, it combines the elegance of the **cast iron structure** with the resistance of **pressure-treated pine wood**, perfect for long-lasting outdoor use.

The seat is composed of **three wooden slats**, while the backrest integrates **two**, all with a section of **4.5 x 11 cm** and a length of **190 cm**, designed to offer stable and comfortable support. The **painted cast iron** side supports are equipped with **holes for assembling the slats** and **pre-drilled holes for ground fixing**, making this bench **safe and stable even in high-traffic environments**.

The structure is supplied in an **assembly kit**, complete with **assembly hardware** (screws and bolts), excluding ground fixing hardware. Assembly is simple and fast, suitable for public bodies, schools, or individuals who need **solid and easy-to-install urban furniture**.

Furnish your public spaces with a resistant bench with a classic style. Order the **H773_29 bench** now or request a quote for multiple supplies!

User benefits:

- **Design:** elegant and resistant for public environments.
- **Materials:** treated to withstand weather and wear.
- **Seat:** comfortable with ergonomic wood.
- **Easy to assemble:** thanks to the kit and hardware included.
- **Provision:** for ground fixing for greater safety.

FAQ:

1. **Is the bench already assembled?**

No, it is supplied in an assembly kit, with assembly hardware included.

2. **Is ground fixing mandatory?**

Not mandatory, but recommended for installations in public places. The holes are already prepared, but the fixing hardware is not included.

3. **What is the wood material?**

The wooden part is made of pressure-treated pine, resistant to weather and humidity.

4. **Is it suitable for high-traffic areas?**

Yes, thanks to the cast iron structure and thick slats, it is robust and suitable for intensive use.

5. **What are its dimensions?**

Its dimensions are L 189 x D 73 x H 85 cm.

Mini buying guide:

The choice of a **bench for public use** must consider durable materials, the possibility of ground fixing, and comfort for users.

The combination of **cast iron and pressure-treated pine wood** is one of the most used to guarantee structural resistance and durability in outdoor environments.

Benches with **solid wood slats** offer a natural look and integrate harmoniously into urban and green contexts.

Always check that the structure is **prepared for anchoring** and that the product is supplied with **assembly hardware**, to simplify installation.

The H773_29 model represents a classic, robust, and functional choice for every urban furniture need.

Cast iron and wood bench for urban furniture, public bench in pressure-treated pine, outdoor bench with backrest, urban bench in assembly kit, resistant urban furniture bench, park bench in cast iron and wood, bench with ground fixing provision.
