

Wooden and concrete bench with backrest h319_145

Urban bench with a modern design featuring a concrete and okumè wood structure, equipped with an ergonomic backrest for greater comfort. Dimensions: L 1700 x D 500 x H 900 mm. Weight: 270 kg.

The **bench with backrest in okumè wood H319_145** is a robust and elegant solution for urban furniture, perfect for **squares, parks, gardens, and high-traffic public spaces**. Made with a **reinforced concrete structure**, featuring **continuous wire internal iron reinforcement**, it guarantees **stability, resistance to atmospheric agents, and long-term durability**.

The **seat and backrest in okumè wood** add a natural and refined touch, offering superior comfort compared to traditional concrete benches. The ergonomic design ensures a relaxed posture, making it ideal for prolonged stays.

Each bench is made through a manual process that includes **casting in custom molds, controlled hardening, and manual finishing**, to ensure a **smooth surface and refined details**. Upon request, the concrete can be treated with **painting or protective finishes** to increase its resistance to atmospheric agents.

Buy the **H319_145 bench** now for durable, comfortable, and designer urban furniture! Request a personalized quote today.
