

Wooden bench for nursery school h908_93

Solid beech wood bench with birch plywood seat and backrest. Dimensions: W 90 x D 27 x H 16/21/31 cm.

The multi-purpose **children's bench h908_93** in **solid beech wood** with seat and backrest in **birch plywood** represents a versatile and resistant solution for schools and educational areas. The solid **solid beech** structure ensures stability and robustness, while the **seat and backrest** in birch plywood offer a comfortable, resistant, and easy-to-maintain surface. Thanks to the particular **variable height (16, 21 and 31 cm)** being **reversible**, this bench is designed to adapt to the different ages and activities of children, allowing for safe and comfortable seating in every situation.

The design is studied to provide an ergonomic and practical solution: perfect for both playtime and educational activities. The combination of **natural materials** and smooth finishes guarantees maximum safety for little ones, avoiding sharp edges or slippery surfaces. Thanks to its **versatility of use** and compact dimensions, this bench is easy to move and place in different areas of the classroom, offering flexibility based on educational needs.

Add a practical and functional **wooden bench for nursery school h908_93** to your classroom, designed to meet the needs of every child! Buy now or request a quote for larger quantities!

FAQ:

1. **What ages are suitable for this bench?**
The bench is suitable for preschool and school-age children.
2. **Is it safe for children?**
Yes, it is built with natural materials.
3. **Is the bench suitable for outdoor use?**
No, it is designed for indoor environments and is not treated to resist humidity or UV rays.
4. **What are the safety measures for stability?**
The structure is designed in **solid beech** with a wide base to ensure optimal stability, even during use by several children.
5. **What ages are indicated for this bench?**
The bench is suitable for preschool and school-age children, thanks to the variable height (16, 21, and 31 cm), which adapts to different growth stages.

Mini buying guide:

When choosing a children's bench, make sure to consider **resistant and safe materials**, such as **solid wood and birch plywood**, which offer durability and comfort. The possibility of **choosing the height (16, 21 or 31 cm)** makes this bench extremely versatile and suitable for children of different age groups, ensuring a comfortable posture according to growth. Always evaluate safety certifications and ease of maintenance, two important aspects for daily and prolonged use in a school environment.
