

Wooden bench for urban furniture h287_124

Bench for public spaces with Nordic pine slats and painted supports. Dimensions: cm 202 x 52 x 73 h - seat height 45 cm.

Outdoor bench, urban furniture and public spaces with Nordic pine slats and painted supports. The bench is composed of 2 supports made of Ø 60 x 2 mm round tube bent into a "U" shape. Seat and backrest are composed of Nordic pine slats pressure-treated in an autoclave using non-toxic salts. The galvanized steel parts are made through a pre-treatment process for degreasing impurities using steam solutions; they are subsequently dried and subjected to non-toxic painting operations in accordance with current regulations.

Technical features:

- Dimensions: cm 202 x 52 x 73 h - seat height 45 cm
- 4 slats 11 x 4.5 x 190 cm
- Material: Nordic pine slats and galvanized steel supports
- Fixing: flush with the ground via perforated plates.
- Hardware and bolts: galvanized according to UNI 3740.
- Delivered to the customer in an assembly kit.
- Built according to safety requirements and UNI 11306:2009 test methods

Available in RAL colors upon request and subject to a quote
