

Wooden bench with backrest h109_352

Urban furniture bench in galvanized steel with seat and backrest in pine wood slats. Dimensions: L. 1650 x D. 570 x h. 848 mm.

Bench for furnishing public spaces, squares and parks, with a structure made of **galvanized and thermosetting polyester powder-coated steel** and a **seat and backrest with pine wood slats**. Consisting of two side supports, made of steel shaped with laser technology. Two oval-section steel tubes, suitably shaped, are welded to the flanges for support, and an oval-shaped base plate is designed to **bolt** the bench to the ground. The seat consists of 2 steel tubes and 5 Nordic pine wood slats. The backrest has the same characteristics as the seat but has 3 pine wood slats. The slats are autoclave-impregnated (**compliance with DIN 68800-3 standards**). The seat and backrest are fixed to the supports via screws.

Technical features:

- Dimensions: L. 1650 x D. 570 x h. 848 mm
- Type: with backrest
- Fixing: to be bolted down
- Structure material: galvanized and painted steel
- Seat and backrest: pine wood slats
