

Wooden examination couch h583_18

Professional medical examination and physiotherapy couch in steamed beech and fir wood. Dimensions 168x68 cm, load capacity 200 kg, minimal design.

The **medical examination couch** stands out for its minimal and elegant design, conceived to integrate perfectly into professional environments such as **physiotherapy clinics**, massage centers, and clinical surgeries. The load-bearing structure combines the solidity of **steamed beech wood** with the flexibility of fir, ensuring a stable work base for various types of manual and diagnostic treatments. The finish is achieved through the application of a **transparent water-based varnish**, which preserves the natural aesthetics of the wood while reducing environmental impact and ensuring maximum safety for the user.
