

Wooden luggage rack for hotel rooms h164_66

Dark wood hotel luggage rack with durable nylon straps. Dimensions: W. 655 x D. 385 x H. 485 mm.

The **wooden luggage rack for hotel rooms** is a furnishing accessory with an innovative design, designed for accommodation facilities looking for a balance between modern aesthetics and extreme resistance. Made of **dark solid wood**, this support stands out for the presence of **chrome inserts** integrated into the structure, specifically designed to protect the wood from scratches and wear resulting from contact with luggage. The main function is to offer guests a stable and raised station for bags and suitcases, improving the ergonomics of the stay. Thanks to the **folding structure**, the luggage rack is easy to place in any corner of the room and can be stored quickly when not needed, optimizing the management of operational spaces in hotels, B&Bs, and holiday homes.
