

Wooden luggage rack with backstand h514_05

Hotel room luggage rack in beech wood complete with three leather straps. Luggage rack equipped with backstand and PVC feet.

The **h514_05 hotel luggage rack** represents an evolved furnishing solution, characterized by a modern design ideal for innovative and contemporary hotels. Made of high-quality **beech wood**, this luggage holder integrates **three robust leather straps** that ensure stability and a refined style. The distinctive element of the model is the **backstand**, designed to protect the room walls from impacts and rubbing during the positioning of luggage. Designed to solve the operational problem of clutter in rooms, the support is completely **space-saving**: once stored, it flattens to a thickness of only 55 mm, making it the preferred choice for the HoReCa target that does not want to sacrifice the elegance of natural materials.
