Wooden luggage rack with leather straps h514_04

Hotel luggage rack in beech wood with three leather straps. Available in different colors. Modern and innovative design.

The **h514_04 hotel luggage rack** is a furnishing accessory with a modern and innovative design, created to stylishly furnish contemporary hotel rooms. Made of fine **beech wood**, this support integrates three elegant leather straps that give a touch of superior refinement to the welcome. The structure is designed as a **space-saving** solution, as it flattens completely when stored, solving the operational problem of volume management in confined environments. The target audience includes boutique hotels and accommodation facilities looking for natural and warm materials without sacrificing the technical functionality of a product **manufactured in Europe**.
