

Wooden museum display case h1041_06

Countertop museum showcase in 8 mm tempered glass and wooden base. Equipped with 8 lateral LED spotlights, demountable structure and locks. Dimensions: 182 x 80 x H 45 cm.

The **h1041_06 museum display case** is a high-end countertop display solution, designed for the protection and enhancement of precious objects in contexts such as art galleries, showrooms, and museum environments. The structure stands out for its **8 mm tempered glass case** (30 cm height) resting on a **wooden base** finished in black (15 cm height), offering an optimal balance between robustness and aesthetic refinement. The integrated lighting system, consisting of **8 lateral LED spotlights** at 4,000°K, solves the problem of shadow areas, ensuring uniform and professional visibility. Thanks to its **demountable** nature, the showcase facilitates logistical operations and transport, making it ideal for dynamic setups and temporary configurations.
