

Wooden school chair height 43 cm h553_06

Beechwood school chair height 43 cm. Size 5.

Beechwood school chair for **elementary schools**. School chair **produced** with high-quality materials, resistant and durable over time. **Tubular structure Ø 25** continuously wire-welded, support and reinforcement connections of the structure adhering below the seat. The chair is made according to current regulations. In relation to the student's height, the standards aim to favor the adoption of a **correct posture** contributing to the psychophysical development of children and young people. Painting is carried out through the application of epoxy powders, after degreasing and phosphating treatment, and subsequent polymerization in a thermal tunnel at 200°. The seat and the backrest are made of 7 mm beech plywood, press-curved and hot-shaped with an ergonomic form to ensure maximum comfort, natural-finished through the application of non-toxic water-based paints. The fixing of the seat and the backrest to the metal structure occurs with the use of eight high-strength rivets, four to the backrest and four to the seat. The chair is equipped with noise-reducing and non-slip rubber feet, non-removable, which, even if dragged, leave no trace on the floor.

Technical features:

- Beechwood material
- Seat and backrest in 7 mm curved beech
- Structure in tubular Ø 25
- Continuously wire-welded
- Stackable
- Height: 38 cm
- Size 4
