

## Wooden tunnel for playground h575\_68

Outdoor wooden tunnel ideal for playgrounds. Dimensions: L.1150 x D.2000 x H.1020 mm. Age: 2-8 years.

**The playground tunnel** is the perfect product to create leisure areas for children and to allow them to perform physical activity while having fun and playing in complete safety, encouraging socialization and developing a desire for adventure. **The structure is made with laminated Nordic pine wood posts 90x90 mm with rounded corners**, while the flooring is covered in CRPLY. The wood used to create the tunnel undergoes a pressure-treatment process **using non-harmful products based on copper salts and boron, in order to keep mold and fungi away**. **The Nordic pine laminated panels are also equipped with galvanized brackets for anchoring to the ground. All fasteners are made of stainless steel and protected by polyethylene rings and caps.**

### Technical features:

- Material: Nordic pine wood
- Pressure-treated Nordic pine boards
- Supports for boards in painted calendered iron
- Central surface in birch plywood covered in CRPLY
- Stainless steel fasteners
- Galvanized brackets for anchoring to the ground
- Dimensions: L.1150 x D.2000 x H.1020 mm
- Safety area: 500 x 415 cm
- Recommended safety flooring: 20.7 sqm
- Max number of users: 3 +
- Max drop height:
