

Wooden waste bin for parks and trails h287_243

Waste bin with lid in pine wood for public spaces. Capacity: approx. 27 liters. Dimensions: W.32 x D.43 x H.125 cm.

The wooden waste bin for public spaces is the ideal product to ensure the cleanliness of parks and trails, while adapting to the characteristics of the surrounding environment thanks to its **pine wood structure**. The product consists of a **basket made of 10/10 thick galvanized sheet steel** covered with **autoclave-impregnated pine slats** using **non-toxic salts to be protected from fungi, bacteria** and also be **resistant to atmospheric agents**. The **support pole** is made of a round galvanized steel tube equipped at the top with a PE finned head cover and a **lid** in 30/10 thick pressed galvanized sheet metal.

The **emptying system** of the bin is via release with an Allen key.

Technical features:

- Material: galvanized steel and pine wood
- Emptying via release with an Allen key
- Basket diameter: Ø 280 x H.440 mm
- Anchoring: to be buried
- With lid
- Capacity: approx. 27 L
- Dimensions: W.32 x D.43 x H.125 cm
