

Wooden waste bin for parks h35005

Waste bin for outdoor areas. Removable internal container in press-bent galvanized sheet metal and bag holder ring. Capacity: 90 liters.

Waste bin with a **simple design** ideal for green spaces, gardens, avenues and parks.

Supporting structure in curved steel tubes without sharp edges and external cladding with vertical strips in **Nordic pine wood** pressure-treated in an autoclave with non-toxic salts in rectangular sections of 8x2 cm. Waste bin for green areas equipped with a **removable internal container** in press-bent galvanized sheet metal and **bag holder ring** with a galvanized steel hinge. The shaped galvanized sheet metal lid with hinge opening is oven-painted at 180°.

The internal container makes emptying and cleaning operations easier and the bag holder ring is essential for aesthetic purposes to prevent the waste bag from protruding and being visible.
