

Wooden waste bin with dragon-shaped side panels h763_20

Thematic wooden and steel waste bin with dragon decoration. 50-liter capacity, EN 1176 certified, ideal for playgrounds and public parks.

The **h763_20 waste bin** is an urban furniture solution designed specifically for **playgrounds and school contexts**. The structure combines a playful aesthetic, characterized by **dragon-shaped polyethylene side panels**, with a robust construction suitable for intensive outdoor use. The choice of colors and figures encourages children's involvement, incentivizing proper waste disposal through an attractive and stimulating design.

Made with **class IV pressure-treated wood and laminated wood**, the bin ensures excellent resistance to biological attacks and atmospheric agents, preventing rot even in the presence of high humidity. Structural stability is guaranteed by a **powder-coated steel** frame, which protects the product from corrosion and drastically reduces the need for periodic maintenance interventions.

Technical features

- **Dimensions:** 62.9 x 35.1 x 74 cm
- **Volumetric capacity:** 50 liters
- **Total weight:** 30 kg
- **Frame materials:** Powder-coated steel and class IV pressure-treated wood
- **Decorative elements:** High-density polyethylene side panels in the shape of a dragon (green color)
- **Resistance:** Certified protection against UV rays, salt corrosion, and impacts
- **Reference standard:** Compliant with EN 1176 safety standards
