

Wooden waste collection bins h737_03

Wooden litter bin for public spaces. Capacity: 60 lt. Dimensions: W.42 x D.44 x h.90 cm.

Waste collection bin for urban furniture, perfect for ensuring cleanliness and respect for the environment in outdoor public spaces such as parks, pine forests and mountain trails. It features a **pine wood body** and **galvanized steel support post**. Built using high-quality materials, suitable for withstanding atmospheric variations, in particular the wood is treated with water-based acrylic resins that prevent possible attacks by woodworms. The support post is equipped at the base with a **fixing plate to allow for bolting to the ground**. Inside, the bin is equipped with a practical **bag holder ring**.

Technical features:

- Dimensions: W.42 x D.44 x h.90 cm
- Capacity: 60 lt
- Material: pine wood and galvanized steel
- Internal bag holder ring
- Fixing: to be bolted
- Available in various colors
