

Work bench with 3 shelves h965_04

Professional work bench in steel and MDF (121x61x144.5 cm). Load capacity 1800 kg, quick boltless assembly, complete with drawer and perforated panel.

The **professional work bench model h965_04** represents an excellent solution for fitting out workshops, technical laboratories and production departments that require high load performance and maximum organization. Characterized by a steel structure with a **50 mm profile**, this bench integrates a vertical and horizontal storage system optimized for intensive use.

The work surface and lower shelves are made of **16 mm high-density MDF**, a material chosen for its ability to absorb vibrations and resist mechanical stress. The functional design includes a **technical drawer on telescopic slides** for the safe storage of instruments and a perforated back panel that allows tools to be kept in sight and in perfect order, maximizing the ergonomics of the workstation.

Technical features

- **Overall dimensions:** W 121 x D 61 x H 144.5 cm
- **Load capacity per shelf:** 600 kg (uniformly distributed load)
- **Total load capacity:** 1800 kg per module
- **Shelf material:** 16 mm thick MDF
- **Structure:** Steel with corrosion-resistant epoxy-polyester coating
- **Assembly system:** Boltless interlocking (estimated time 15 minutes)
- **Configuration:** 3 total shelves, drawer with telescopic slides, tool holder back panel
- **Stability:** Self-stable structure with 4 protective plastic feet included
