

Work harness with straps h1053_01

Work harness h1053_01 with adjustable straps, rear eyelet, and safety belt. Available in sizes S, M/L, and L-XL.

The **work harness with straps h1053_01** is a personal protective equipment designed to ensure total safety for operators during work at height. Intended for construction professionals, maintenance workers, and industrial technicians, this product solves the need for secure and comfortable anchoring, limiting exposure to the risk of accidental falls. The ergonomic configuration, equipped with modular straps and double-adjustment shoulder straps, allows the device to adapt to different body types, ensuring maximum freedom of movement without compromising stability, hold, and postural support during critical operational phases.
