

Work table h900_12

Industrial workbench with 40 mm solid beech top, 6 drawers and 1250 kg capacity. Steel structure for workshops and laboratories.

This **professional workbench** is designed to meet the needs of mechanical workshops, artisan laboratories, and industrial production departments. The combination of a robust square steel tube frame and a high-thickness worktop ensures structural stability even during heavy-duty tasks. The integrated storage system allows for maintaining operational order while protecting tools from dust and impacts.

Technical features

- **Worktop:** Solid beech with 40 mm thickness, ideal for mechanical resistance and durability.
- **Structure:** Supporting frame in square steel tube with scratch-resistant powder coating.
- **Drawer system:** 6 units mounted on pull-out guides with roller bearings for smooth sliding.
- **Load capacity:** Maximum static capacity of 1250 kg.
- **Dimensions:** W. 1500 x D. 700 x h. 840-1040 mm.
- **Delivery status:** Delivered already assembled and ready for use.
