

Workbench for work tools h965_06

Steel and MDF workbench (91x61 cm). 400 kg capacity per shelf, drawer with telescopic slides and quick boltless assembly in 15 minutes.

The **h965_06 tool workbench** is a professional high-load capacity workstation, designed to optimize productivity in workshops, laboratories, and industrial departments. Its vertical configuration effectively solves the problem of limited space, while offering a robust operating surface and an integrated storage system for tools and small parts.

The structure is made of a **50 mm steel profile** treated with epoxy-polyester powder coating, which guarantees high resistance to corrosion and mechanical wear. The presence of **16 mm MDF shelves** ensures stability during assembly or maintenance operations, supporting significant loads without structural bending.

Technical specifications

- **Total dimensions:** W 91 x D 61 x H 144.5 cm
- **Load capacity:** 400 kg per shelf (uniformly distributed load)
- **Shelf configuration:** 3 levels of 16 mm MDF (including top shelf)
- **Assembly system:** Boltless interlocking system, estimated time 15 minutes
- **Frame:** Steel with 50 mm profile and epoxy-polyester finish
- **Organization:** Drawer with telescopic slides and rear perforated panel
- **Stability:** Self-standing structure with 4 protective plastic feet included
- **Color:** Industrial gray and natural wood
