

Workbench h900_02

Industrial steel workbench with 40 mm solid beech top. Load capacity 1250 kg, adjustable height 84-104 cm. Supplied assembled.

This **professional workbench** is designed to meet the needs of mechanical workshops, production departments, and industrial laboratories requiring a solid and adaptable workstation. The square tube structure ensures structural stability under heavy loads, while the **40 mm solid beech top** offers a work surface resistant to mechanical wear and impact. Thanks to the height adjustment system, the operator can configure the bench according to their height or the type of processing, promoting the maintenance of correct ergonomic posture.

Technical features

- **Frame:** Made of sturdy square steel tube
- **Worktop:** Solid beech with 40 mm thickness
- **Adjustment:** Variable operating height from 84 to 104 cm
- **Load capacity:** Maximum static load capacity of 1250 kg
- **Installation:** The product is supplied already assembled and ready for use
- **Dimensions:** W 200 x D 70 cm
