

Workbench h900_13

Professional workbench with 40 mm solid beech top, adjustable height and 1250 kg load capacity. Includes 3 drawers and 2 hinged doors.

This **professional workbench** represents a modular and robust solution for the organization of workshops, technical laboratories and production departments. Thanks to the **40 mm solid beech top**, the surface offers extremely high mechanical resistance and prolonged durability even under heavy stress. The square tube frame guarantees structural stability, while the height adjustment system allows the workstation to be configured according to the operator's ergonomic needs or the specifications of the task to be performed.

Technical characteristics

- **Worktop:** solid beech with 40 mm thickness
