

Workbench with 4 feet h965_11

Steel and 35 mm MDF workbench (120x75 cm). 600 kg capacity, self-standing structure with quick screw assembly and protective feet.

The **h965_11 workbench** is a professional workstation designed to meet the needs of workshops, laboratories and production departments that require a solid and durable support surface. Thanks to its high load capacity, this module solves the problem of managing heavy equipment, offering excellent stability without the need for fixed wall anchoring.
