

Workbench with shelf and cabinet h286_68

Workbench h286_68 in RAL 5010 blue steel with 40 mm beech top, 5 drawers, cabinet, shelf and 2 cloth holders. Dimensions: W 300 x D 70 x H 90 cm.

The **Workbench with shelf and cabinet h286_68** is a high-capacity monoblock workstation, designed for the rational management of space and operations within technical and industrial environments. This furniture system addresses the operational problem of organizing tools of different sizes, offering an integrated combination of closed compartments, containers and a large striking surface on which it is possible to mount vices and shelves. Targeted at maintenance technicians, workshop technicians and laboratory or production department managers, the workbench is built on a sturdy steel angular structure painted with oven-baked powders in standard RAL 5010 blue. The upper surface features a 40 mm thick visible multilayer beech top, integrated with a lower sheet metal shelf with edges. The structure measures 300 cm in width, 70 cm in depth and 90 cm in height. The storage equipment includes 2 single metal drawers and 1 metal drawer chest consisting of 3 drawers (for a total of 5 drawers), all sliding on nylon-covered ball-bearing guides and equipped with end-of-travel stops. The organizer includes 1 metal cabinet complete with 1 fixed internal shelf with lock, a centralized lock for the drawer chest, individual locks for the drawers and 2 open metal cloth holders.
