

Workshop service trolley with handle h286_62

Steel workshop trolley with 2 reinforced shelves, 100x60x79 cm. Equipped with Ø 200 mm wheels for heavy loads and ergonomic monobloc handle.

The **H286_62 service trolley** is a high-performance mobile unit, specifically designed for the intensive handling of tools, mechanical components, and heavy equipment in industrial environments. Its **monobloc structure in electro-welded steel sheet** offers superior structural stability compared to modular models, eliminating vibrations and mechanical failures under load.

Technical features

- **Construction material:** high-thickness steel sheet
- **Configuration:** 2 loading shelves with integrated structural reinforcement tubes
- **Overall dimensions:** W 1000 x D 600 x H 270/790 mm
- **Rolling system:** 4 rubber wheels Ø 200 mm (2 fixed and 2 swivel) on galvanized support
- **Maneuverability:** ergonomic tubular steel handle Ø 28 mm
- **Finish:** impact-resistant epoxy powder coating, blue RAL 5010
- **Supply condition:** monobloc structure ready for use
