

Workshop trolley with two shelves h965_17

Metal workshop trolley with 2 chipboard shelves, 90x40x103 cm. 150 kg capacity, quick boltless assembly and high-smoothness wheels.

The **workshop trolley h965_17** is a professional solution designed for the agile organization and movement of tools and components within industrial environments, mechanical workshops, and craft laboratories. The structure, made of **steel with an epoxy-polyester finish**, meets the need for a mobile station resistant to daily wear and corrosive agents typical of production contexts.

Equipped with two wide shelves in **high-density chipboard**, the trolley allows for optimal weight distribution, ensuring stability even when fully loaded. The interlocking assembly system eliminates the need for screws, drastically reducing operational downtime during installation. Its compact dimensions make it ideal for transit in narrow aisles, keeping equipment always accessible at the workstation.

Technical features

- **Total dimensions:** W 90 x D 40 x H 103 cm
- **Load capacity per shelf:** 75 kg (uniformly distributed load)
- **Total load capacity:** 150 kg
- **Structure material:** Metal with epoxy-polyester coating
- **Shelf material:** Robust chipboard
- **Configuration:** 2 open shelves
- **Assembly system:** Interlocking (boltless), estimated at 15 minutes
- **Mobility:** 4 integrated wheels for smooth movement
- **Color:** Blue and orange for high visibility in the work environment
