

Workshop workbench h905_08

Industrial steel sheet workbench (200x67 cm) with 6 uprights. Load capacity 2000 kg, epoxy painting and floor fixing.

This **professional workbench** is designed to meet the needs of mechanical workshops and production departments requiring an extremely stable and resistant support surface. The structure is entirely made of high-thickness **sheet steel**, treated with epoxy paint to ensure protection against wear and chemical agents. Thanks to the **6-upright** configuration and the provision for ground anchoring, the bench offers superior structural rigidity, ideal for heavy-duty processing and complex assembly.

Technical features

- **Dimensions:** L. 200 x D. 67 x H. 88 cm
- **Material:** High-quality sheet steel
- **Configuration:** Standard upper shelf and lower shelf
- **Support:** 6 vertical uprights structure
- **Fixing system:** Designed for mechanical anchoring to the floor
- **Finish:** Epoxy powder coating
- **Net weight:** 59.5 kg
- **Load capacity:** Static capacity 2000 kg
