

Workshop workbench with 2 uprights h905_11

Steel workshop workbench with 3 mm top shelf, dimensions 150x74.5 cm and epoxy powder-coated structure.

This **professional workbench** is designed to meet the needs of mechanical workshops and production departments requiring a high-resistance support surface. The supporting structure consists of two vertical uprights that ensure volumetric stability, while the **double shelf** configuration allows for optimization of the operating space, separating the work area from the storage area for tools or components.

Technical features

- **Total dimensions:** W. 150 x D. 74.5 x H. 88 cm
- **Configuration:** 2-upright structure with upper and lower shelf
- **Upper shelf:** 3 mm thick steel sheet for heavy-duty stress
- **Lower shelf:** 1.5 mm thick steel sheet for secondary storage
- **Surface treatment:** Epoxy painting of the uprights for superior anti-corrosion protection
- **Material:** High-thickness steel
